After an opening hymn, a selection of Scriptures was read by Rev. Mr. Hicks, of Richmond College, and srayer effered by Rev. Mr. Lamb. The reports showed the schools to be in a healthy condition. The address was delivered by Rev. S. C. Chonton, D. D., formerly paster of Chay-Street, now Calvary, Baptist chirch, Richmond. Short talks were also made by Rev. Messrs. Hicks and Lamb.

NOTHING BUT THE GOSPEL

NOTHING BUT THE GOSPEL.

The following paper offered by Rev. R. P. Kerr. D. D. was adopted by the Presbyterian Ministers' Association of Richmond and Manchester:

'In view of the fact that the Government of the United States is engaged in a war which naturally creates excitement and an unusual tension of anxiety with reference to the incidents of battle on land and sea, we, the Presbyterian Ministers' Association of Richmond and Manchester, Judge it fitting to declare our conviction that, while ministers and people in public and private should pray our conviction that, while ministers and people in public and private should pray God's blessing upon our rulers, upon the officers and men of the army and navy, and that peace with honor may soon be established, yet it is the duty of ministers to proclaim from their pulpits at all times nothing but 'the glorious gospel of the blessed God,' according to our commission from the great Head of the Church.

"We also urge upon our people that they abstain on Sabbath from such conversation and reading as may be inconsistent with the holy resting of the Lord's day, and that they devote its sacred hours to the public and private exercises of God's worship, except so much as is to be taken up in works of necessity and mercy."

LITTLE ONES GOING TO HEAPEN.
On Sunday evening, in the First Presbyterian church, Dr. Kerr spoke on the
question, "Are infants, Dying in infancy,
Saved." The text was, "And David said,
if shall go to him, but he shall not return to me." 2 Samuel xii, 2-5,
Dr. Kerr said, in part: "This sermon
is not intended to convince any one that
infants, dying in infancy, are saveit, for
none of you believe that they are lost.
It is our purpose to repel a slander often

It is our purpose to repel a stander often extered against the Presbyterian Church that it teaches the damnation of infants. never knew a Presbyterian who be lieved such a monatrous doctrine, and it in not taught in our standards of theology. The Rev. R. L. Dabney, D. D., lately deceased deceased gave me, some years ago, this statement for publication. The Presby-terian (Thurch holds firmly to the salvation of infants, and does not teach that even pagan infants are lost."

American guns are sighted somewhat differently from those used in the British service. All of them, down to the small 21b or 31b quick-firers, are supplied with only one telescopic sight, fitted with Internal cross-wires much after the monner of those used in the depression range-finder by our owd garrison artillery.

Lieutenant Hills, who showed me over the ship, told me that at larget practice on the previous day, with an sinch gun, they had hit the target, twelve fact square, three times out of four shots, at a range of 4000 yards. If the stale average is made in action the Spanish ships will have an unhappy time.

The other vessels in the Key West squadron are the battleship Indiana; the

chich attracted so much attention at the Jubilee Naval Review in the Solent at July. She has a speed of 21 knots, gleet belt 28 inches thick, and a procedure deek of from 25 inches to 26 inches of Harveytsed steel, carries six inch guns to bathettes having 10-inch f armour, twelve 4-inch guick-flores, ght 6-pounders four 1-pounders, and our Gaiting guns, all behind shields, ix torpedo tubes, and a crew of 266 icn.

Although classed as a cruiser, the New York is almost a match for the best Spanish battleships.

The monitors rorrespond to our coast defence tronclads, and a great difference of cointon preveils among American naval men as to their fighting value. One of those here, the Puritan, is claimed by several experts to be the most formidalbe vessel in the navy. The strange-looking craft is almost flush with the water, and looks like a huge raft, on which two great circular forts are mounted. Each of these sizel forts contain two 12-inch breech-loading gluss of the most recent partern, and the Puritan also carries four 6-inch guns, four 3-pounders and eight smaller machine guns. The excessive thickness of the Harvayised armour, the great gun power the low free-board, and the reasonable spend of twelve knots of this vessel and her sizers the Terror.
